INSTRUMENTS

# Expanding your Cordless Capabilities

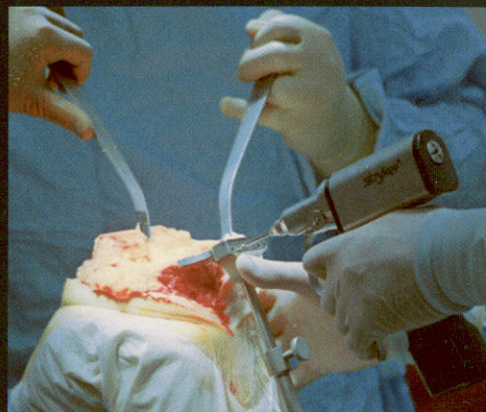

**Stryker System 2000 Heavy Duty Battery Powered Instruments have been proven both powerful and reliable for Total Joint Replacement. The SYSTEM 2000 CORDLESS DRIVER will expand your application of battery powered instruments, and the freedom to which you have become accustomed.**

**Cut The Cord...Keep The Power.**

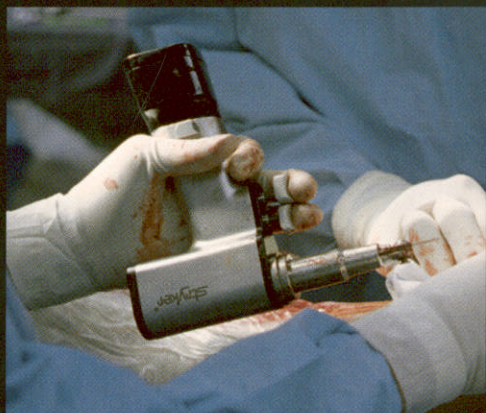

## **Powerful**

*Capable of drilling, tunneling and reaming.*

## **Versatile**

*Useful for most orthopedic procedures. Eliminates the need for multiple handpieces.*

## **Cordless**

*Improved maneuverability.*

# Introducing The System 2000 Cordless Driver

# Features

## Wiring

- *Automatically adjustable wire collet simplifies the placement of wires.*
- *Integrated oscillating feature assists in accurate wire placement.*

### Collet options for Wiring:

- 4100-062 Wire Collet\*
- 4100-131 1/4" Jacobs Drill
- 4100-132 5/32" Jacobs Drill

## Pinning

- *Automatic pin placement and the driving of guide pins.*

### Collet options for Pinning:

- 4100-125 Pin Collet\*
- 4100-131 1/4" Jacobs Drill
- 4100-132 5/32" Jacobs Drill

## Drilling

- *Accommodates variety of drilling demands.*
- *Oscillating feature assists in accurate placement of drill bits and helps to prevent spooling of soft tissue.*

### Collet options for Drilling:

- 4100-110 Synthes® Drill\*
- 4100-131 1/4" Jacobs Drill
- 4100-132 5/32" Jacobs Drill
- 4100-135 Hudson®/Mod Trinkle Drill
- 4100-160 Trinkle Drill

## Tunneling

- *Power to tunnel with trephines and large diameter drill bits.*

### Collet options for Tunneling:

- 4100-131 1/4" Jacobs Drill\*
- 4100-231 1/4" Jacobs Reamer

## Reaming

- *Reamer collets deliver high torque.*
- *Intermedullary Reaming for I. M. Nails.*

### Collet options for Reaming:

- 4100-210 Synthes® Reamer\*
- 4100-231 1/4" Jacobs Reamer
- 4100-235 Hudson®/Mod Trinkle Reamer
- 4100-260 Trinkle Reamer

## Sawing

- *Variable speed for precision cutting.*
- *Unique tool-less blade mount reduces blade whip and flex.*

### Collet options for Sawing:

- 4100-400 Sagittal Saw Attachment\*

\* Items pictured in featured surgical procedure

# Accessories

## **4100-451 Sterilization Case**

- Holds all accessories for complete sterilization.
- Convenient inner tray presents instruments on a sterile field.

## *Inner Tray*

## **4112 Battery**

- Easily locked in and easily removed from handpiece.
- Small and lightweight.
- Sufficient run time to complete most surgical procedures with only one battery.
- Flash autoclaveable or gas sterilizeable.
- Battery Adaptor used to charge Cordless Driver Battery in System 2000 Charger.
- Easily slides in to System 2000 Charger.

## **4100-406 Battery Sterilization Rack**

- Orients batteries in proper sterilization position.
- Presents Cordless Driver in surgery ready position on a sterile field.

## **2110-120-100 Charger**

- Quickly charges Cordless Driver and other System 2000 batteries.
- Modular design allows for expansion to 4, 6, or 8 pockets.
- Indicator lights provide battery status feedback with "Charge", "Ready", and "Replace" indicators.
- Accepts/charges small Cordless Driver Batteries.

# Collets

## Drill Collets

- Variety of collets accept drill bits, taps, and automatic screwdriver attachments.
- Collets ensure quick, precise accessory placement, while hand-piece provides cutting speed control.

**4100-125**  
Pin Collet  
(Accepts pins from  
.078-.125" dia.)

**4100-62**  
Wire Collet  
(Accepts wires from  
.028-.071" dia.)

**4100-110**  
Synthes® Drill

**4100-132**  
5/32" Jacobs Drill  
w/key

**4100-131**  
1/4" Jacobs Drill  
w/key

**4100-135**  
Hudson®/ Modified  
Trinkle Drill

**4100-160**  
Trinkle Drill

## Reamer Collets

- Delivers high torque.
- Excellent for reaming of Intermedullary Canal and for A.C.L. reconstruction applications.

**4100-210**  
Synthes® Reamer

**4100-235**  
Hudson®/ Modified  
Trinkle Reamer

**4100-231**  
Jacobs Reamer  
w/key

**4100-260**  
Trinkle Reamer

## Right Angle Reamer

- Deliver high torque with improved surgical approach in Intermedullary Reaming.
- Integral safety mechanism prevents accidental reversing of flexible reamers.

**4100-310**  
Right Angle Drive  
Synthes® Reamer

**4100-335**  
Right Angle Drive  
Modified Trinkle Reamer

## Specialty Collet

- Accepts Stryker Precision™ Sagittal blades.

**4100-400**  
Sagittal Saw Attachment

# Blades

Stryker Precision Blades are available in various sizes and thicknesses to address the specific requirements of each procedure.
