

The Evolution of High Definition Technology

1288 HD 3-Chip® Camera

As the third generation in Stryker's HD 3-Chip® camera line, the 1288 HD 3-Chip® Camera features a 1920x1080p resolution along with nine specialty settings, resulting in optimum color resolution and brightness. Additional benefits of the 1288 HD 3-Chip® Camera include wireless transmission capabilities, four fully programmable buttons on the camera head, HD and HDTV outputs, and a touch screen LCD interface for easy navigation. By allowing for backwards compatibility with past generation digital capture devices, scopes and various flat panels, while also offering future capabilities with an optional fiber optic board, the 1288 HD 3-Chip® Camera continues to offer new solutions for improved visualization within the OR.

1288 HD 3-Chip® Camera Heads High Definition Standardization

1288 HD Urology 3-Chip® Camera Head

- 90° cable cable design for Urology, Gynecology & ENT procedures
- Rotating integrated 20mm coupler
- Built-in beam splitter provides direct eye viewing
- Ergonomic and light weight design

1288 HD 3-Chip® Regular Camera Head

- Ergonomic design for multi-specialty use
- Easy to rotate 20mm coupler design
- Fully programmable four buttons

Unparalleled Resolution And Clarity for the OR

Features:

- 1920 x 1080p resolution
- Enhanced clarity, depth of focus and sharpness
- L9000 light source control from the camera head
- Intuitive touch screen LCD interface

1288 HD Inline 3-Chip® Camera Head

- Optimum design for Endoscopic Vein Harvesting
- Fully programmable 4 buttons
- Easy to rotate 20mm coupler

Fully programmable buttons

20mm durable coupler with a single-hand focusing design

Ergonomic cable connector for reliable connection
