

Optical Forceps

for use with **HOPKINS**® Telescopes 10328 AA/BA.

- The jaws of the forceps and site of biopsy are well visible before and during the biopsy procedure.
- Foreign bodies can now be removed under precise visual control.
- Better assessment of the depth of cut when taking biopsies.

For use with **HOPKINS**® telescopes 10328 AA/BA and bronchoscope tubes sizes 8.5-6.5:

- 10352 L **Optical Biopsy Forceps**, circular cup 3.3 mm.
- 10352 H **Optical Alligator Grasping Forceps**.
- 10352 SB **Optical Scissors**.
- 10352 U **Optical Forceps, Universal**, for biopsy, and grasping.
